The Future of Eurasia Global IT Trends

The Potential

An aerial night view of a city, likely Nicosia, Cyprus, showing a dense urban landscape with numerous lights from buildings and streets. A semi-transparent blue map of Eurasia is overlaid on the right side of the image, highlighting the city's location. The title 'The Potential' is prominently displayed at the top in a large, white, sans-serif font.

- Geographic Center of Eurasia
- 33 million people
- 70% are 30 years old & younger
- Innovation is accelerating globally

Digital Transformation is Accelerating

A digital cityscape at night with a grid floor and a runner whose body is composed of digital particles. The runner is in the foreground, moving from left to right. The background features stylized buildings and a grid of light lines on the ground. The overall aesthetic is futuristic and digital.

Everything is Becoming Smarter

A night cityscape with a purple grid overlay representing smart infrastructure. The grid consists of numerous overlapping circles and lines, creating a complex network pattern across the entire image. The city lights are visible through the grid, with various colors like blue, orange, and white.

Upside of Outsourcing

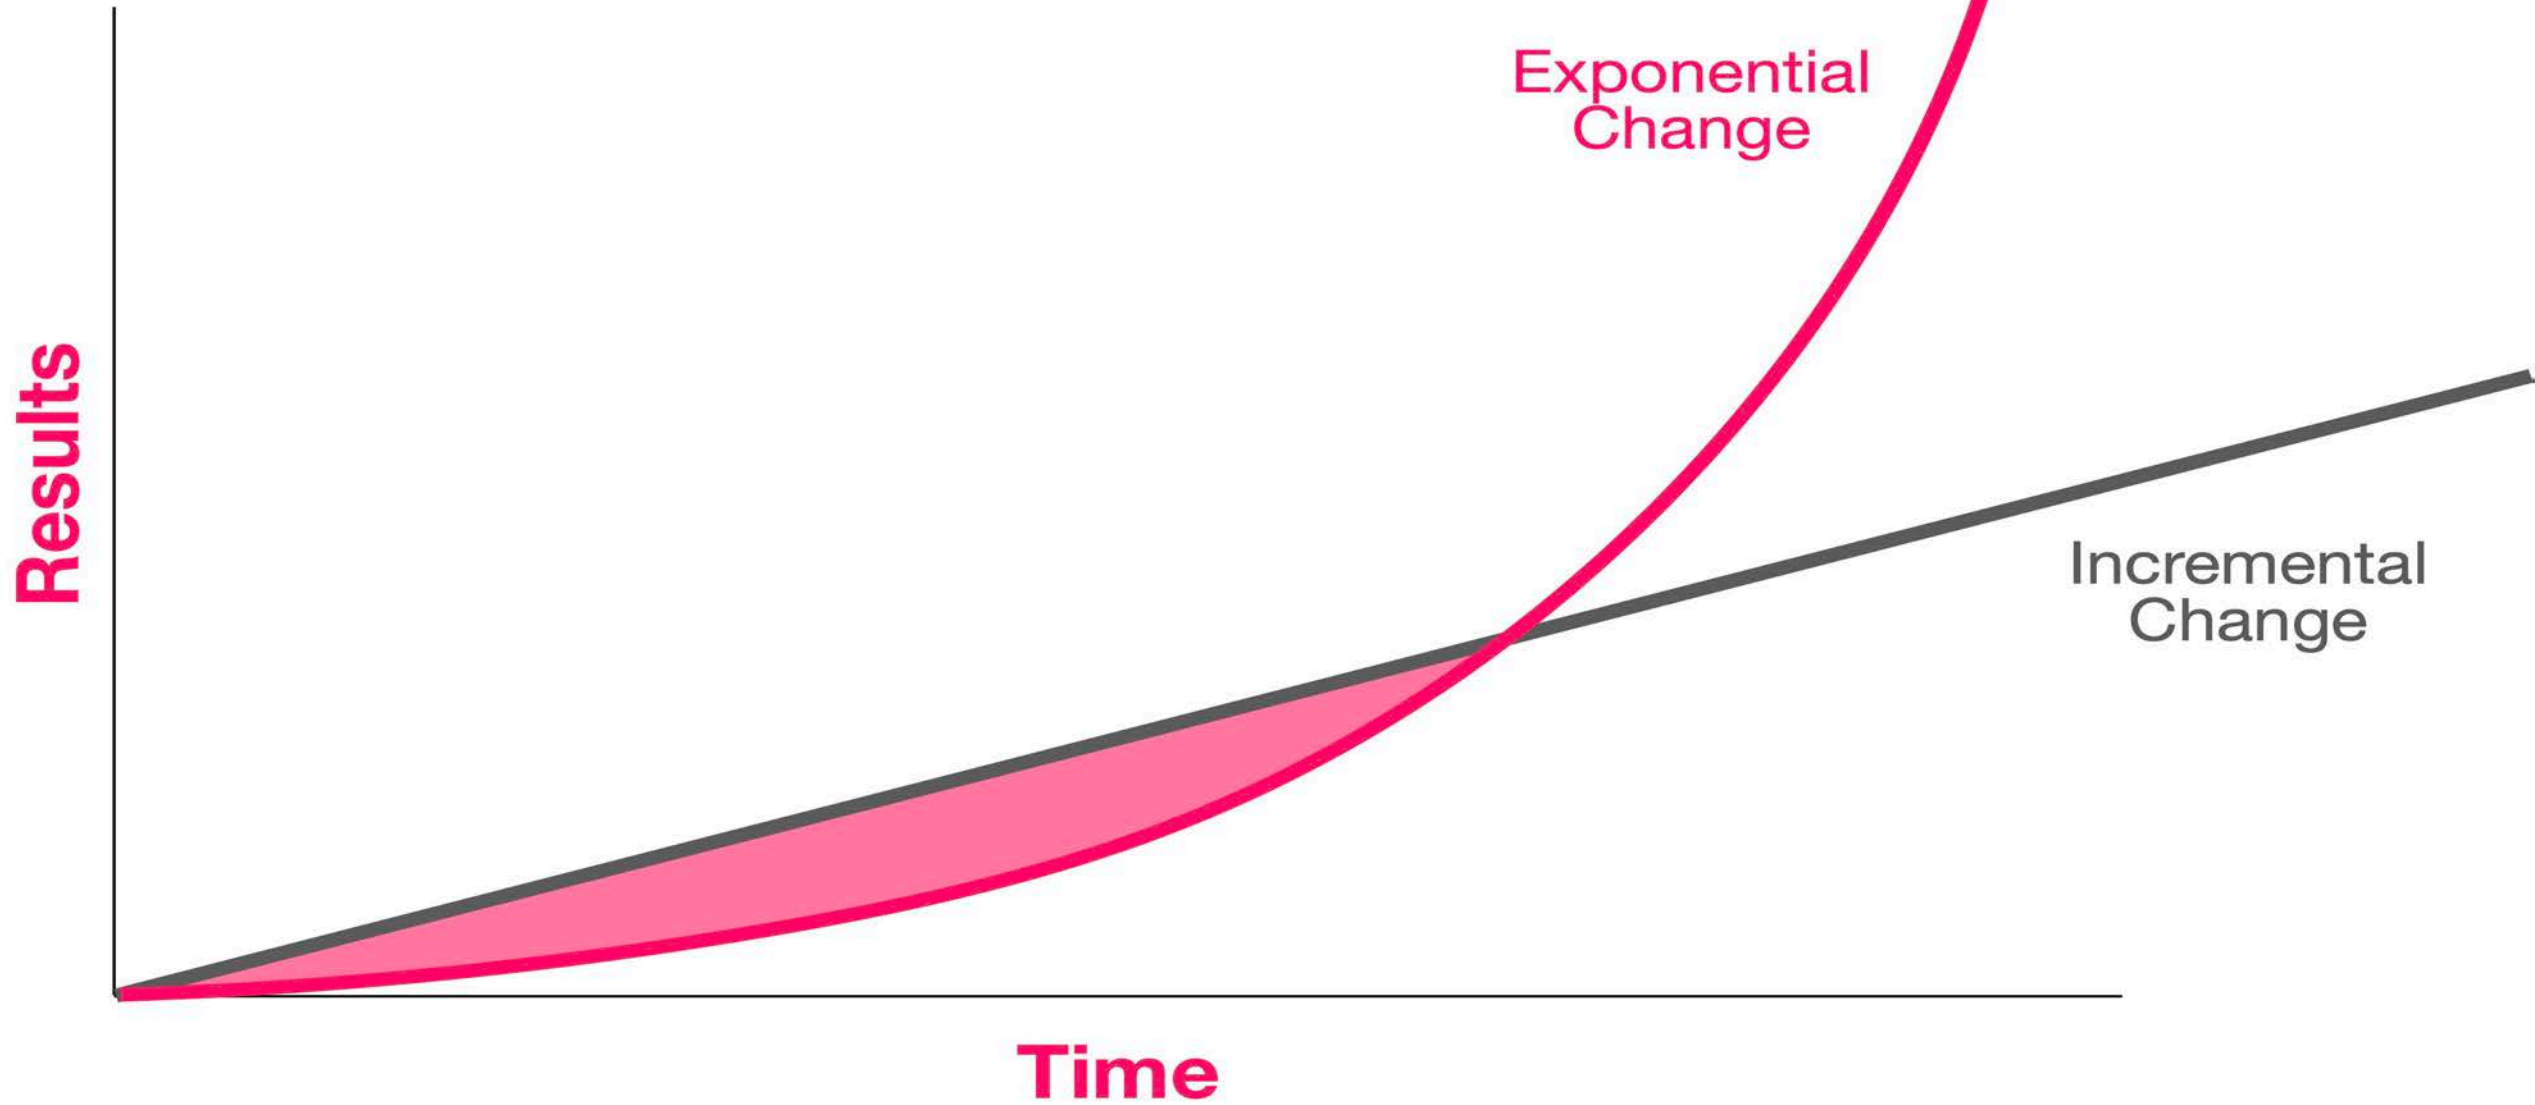

- Low capital requirements
- Easier to launch
- Clear path to profitability

Downside of Outsourcing

A hand is shown on the right side of the image, pointing towards a futuristic digital interface. The interface features a central circular display surrounded by various icons: a magnifying glass over people, a bar chart, a globe, a gear, and a group of people. The background is dark blue with glowing lines and patterns, suggesting a high-tech or data-driven environment.

- Extremely competitive
- Margins get squeezed
- Limited growth potential

Innovation vs. Outsourcing

Innovation Economies

- Highly scalable
- More resilient and flexible
- Become global talent magnets
- Develop domain expertise

Singapore vs. Malaysia
