

# Startups in Eurasia - investment and environment

**6** Acceleration program

**4** Technology parks

**16** Incubation centers

---

According to the country's legislation, startups are exempted from taxes for 10 years for their income from activities in state-created technology parks, VAT on the import of imported machinery, technological equipment and facilities, property and land they use.

Also, startups are exempted from customs duties for 7 years for the import of machinery, technological equipment and devices.
